

Peel-Off Projects

Black & White

1. Stick the Peel-Off sticker onto the semicircle.
2. Cut the Peel-Off sticker.
3. Repeat this in reverse.
4. Stick the black/white butterfly onto the card

Card with diagonal: Requisites: Peel-Off 0213, 0215 in black and white; cardboard: Black, white. Take a white square of 13.5 cm and cut it diagonally through the middle. Glue one of the two triangles onto a black card (13.5 x 27 cm). Cut out black and white squares of 11.6 cm, cut the white one diagonally through the middle and glue it on.

Card with circle: Requisites: Peel-Off 0214, 0215 in black and white; cardboard: black, white. Cut out a white strip 6.7 x 13.5 cm and glue it onto the left side of a black card (13.5 x 27 cm). Cut out a black and a white circle of 10.6 cm diameter, cut through the white one, and glue it onto the black circle.

Tip: If you wish to work with cardboard elements, but you want to apply the black / white technique on an identical background, you can moisten the back of half of the black Peel-Off pattern somewhat. Attach the adhesive section to the background and carefully cut or trim the other half away. Do the same with the white pattern and place it precisely on top of the black pattern, after which you again cut or trim off the non-adhesive part.
