

## Peel-Off Projects

### Borders / Flowercard

1. Stick the Peel-Off on the pink cardboard and colour the background black.
2. Cut the veins loose, save them on the side and cut out the leaves.
3. Glue the whole motif on the green scrap paper and glue the veins back into the leaves.
4. Frame the card with the golden Peel-Off outlines, let them overlap each other and cut them through diagonally. Remove the remains.

#### How to do it:

Colour all the edges with the stamping ink.

Cut 14.8 x 21 cm from natural cardstock, fold in the middle. Cut 2 pieces of designer paper (5 x 1.8 cm) and glue onto the card. Cut a strip of 2.5 x 14.8 cm and glue it in the middle of the card. Attach the Peel-Off onto red paper, fill the background in with the black marker and cut away the inside of the leaves. Glue the whole pattern onto green paper and colour in the details with the marker. Glue on the card with foam tape. Make a frame with the gold outlines.
