Sticky Shapes 0020 / 0143

Tips:

Using glitters: lay the Sticky Shape sheet onto an A4 paper and remove the transparent top layer. Scatter the glitters over the Sticky Shapes patterns. Be sure that everything is completely covered with glitters and press the glitters with your fingers onto the Sticky Shapes. Shake the rest of the glitters onto the A4 paper in order to put them back into their container.

Of course it is possible to cover various motives of Sticky shapes with different colours. Cut out the motives separately including the top layer and remove the top layer only when you want to cover the Sticky Shapes with glitters or deco foil.
