

Peel-Off Projects

Colour Dimension wall decoration - Hennie Zellenrath

Step 1:

Paint the little canvas sheet black

Step 2:

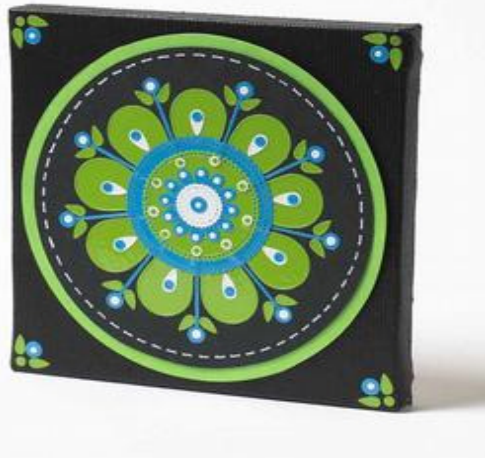

Draw little lines onto the black circle along the outside of the template circle using the white gel pen

Step 3:

Stick the little designs into the corners of the panel with the aid of a utility knife

Step 4:

Stick the heart into the centre of the flower

White decorative sticker

Blue decorative sticker

Green decorative sticker

Small sheet of canvas, 10 x 10 cm

Black paint

Paintbrush

Card-making cardboard: black, blue, green

1 mm foam tape

White gel roller pen

Circle cutter

Method:

Paint the canvas sheets with a good coat of black paint. Cut a circle from the green card with a diameter of 9.3 cm, and a circle with a diameter of 8.7 cm from the black card. Draw little white lines onto the black circle, 2 mm from the edge, using the gel pen.

Tip: cut a circle with a diameter of 8 cm from a piece of scrap card, stick this exactly onto the centre of the black circle with a tiny drop of photograph adhesive and draw the white lines around the edge of this template onto the black circle. Lift off the template and remove the photograph adhesive.

Stick the coloured circle and the black circle together using photograph adhesive. Stick the various Peel-Off designs in various colours on top of each other for a beautiful creation (see photograph, or use your own imagination and creativity). Stick this onto the canvas sheet using foam tape and decorate the corners with little sticker designs
