Basic materials

**Method:**

Cut a 21 x 14.8 cm rectangle from the white cardboard, score down the middle, and fold the card. Cut a 10 x 14.3 cm rectangle from the black cardboard, round off the corners using the corner punch and stick onto the card. The design of the Peel-Off is available in various colours. You can produce all kinds of wonderful creations by sticking the coloured designs over each other. The designs are connected with stripes, drawn using the white gel pen. Stick a few little circles from the sticker sheet into the drawn curls and onto the corners of the card

**Tip:** remove the small designs from the sticker sheet using a blunt utility knife. If you use a sharp knife, you may see a small dent in the sticker design from the blade.
