

Peel-Off Projects

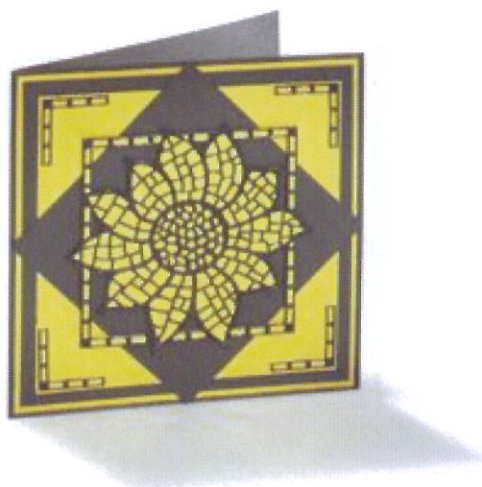

Mosaic – Card with sunflower

Step 1: Remove the pattern from the sheet with moistened finger tips. Place it upside down on the cutting mat with the sticky side upwards and place the card on it.

Step 2: Cut the background away

Step 3: Blacken the edges with the ink pad

Step 4: Cut small strips of foam tape and stick them behind the pattern

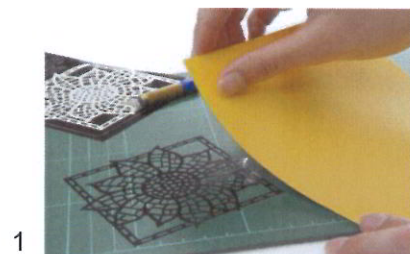

Peel-Off 0220 black
 Cardboard base black and yellow
 Black ink pad
 Foam tape 0.8 mm
 Photo glue

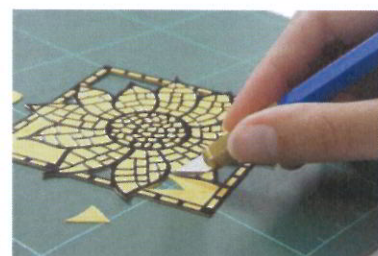

Working method:

General: Remove the patterns from the sheet with slightly moist finger tips and place them upside down on the cutting mat with the sticky side upwards. Place the yellow card carefully on top and press down slightly. Turn the card round: the pattern is now in the right place. Cut the background away. Colour all the edges black with the ink pad. Cut a rectangle measuring 27 x 13.5 cm from the black card, score the middle and fold the card. Cut a yellow square measuring 13 cm, a black square of 12.5 cm, a yellow square measuring 11.5 cm, paste them on top of each other and then onto the card. Colour all the edges of the yellow card black with the ink pad. Cut a black square measuring 9.5 cm and place it diagonally on the card. Cut out the butterflies from the corner patterns and stick these edges in the corners of the yellow square. Paste strips of foam tape behind the cut out pattern and paste in the middle of the card.

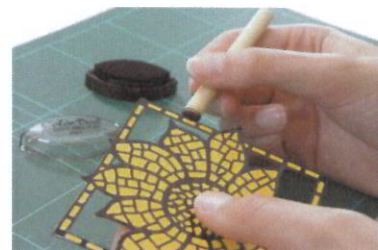

Tip: Once the patterns of a Peel-Off have been used, the base can be used to cut foam tape. This will not stick to the base and is easy to cut into small strips!
