 Black ink pad  
 2 mm foam tape  
 Black fineliner  
 Basic materials

#### General method:

The design of the butterfly Peel-Off is available in various colours. You can produce all kinds of attractive combinations by sticking the coloured elements over each other. Use the fineliner to draw little lines to indicate the lines of flight of the butterflies. Stick on the coloured circles to decorate the background. Colour the outer edges of the card using the black ink pad. Decorate the corners of the card with the little flowers.

Cut a 14.8 x 21 cm rectangle from the white card, score down the middle, and fold the card. Cut a green top sheet and a blue top sheet measuring 10.5 x 14.8 cm. Copy the patterns onto the card, and cut out the middle sections. Stick both passe-partouts together using photograph adhesive. Lay the whole thing onto the white card and mark out the middle sections with a pencil. Stick on the butterflies in accordance with the instructions in the general method. Lastly, stick both passe-partouts together with photograph adhesive and stick the whole thing onto the card with foam tape
