Peel-Off 0400 black and white
White gel pen
Black permanent marker
Strass stones
Utility knife
Black and white photograph frame
Black and white vases

Method:

Stick the contrasting Peel-Off designs onto the photograph frames. Carefully pick up the designs with the tip of a utility knife (the blunter the better, as a sharp tip can leave dents in the sticker design) and stick them onto the background. Join the shapes by drawing decorative lines (doodles) with the permanent marker pens. Decorate the photograph frames with Strass stones. Create the prettiest flowers by sticking all kinds of contrasting designs on the vases.
